ABOUT US

IMQ is one of Europe's top players in the field of conformity assessment.

Backed by almost 75 years of operation, we are the ideal partner for companies who want to dial up their value by **certifying the safety, quality and performance of their products.**

We provide certification, testing, inspection and audit services to support companies in key manufacturing sectors, **ensuring they comply with the requirements needed to access their target markets.**

Our Mission: to improve quality of life, reduce risks, increase productivity, boost efficiency, and **add value.**
